## Terms and Conditions

### 1. GRANT OF RIGHTS.

Contingent upon payment of the subscription fee within thirty (30) calendar days of the order, American Psychiatric Publishing grants to the Licensee(s) a world-wide, non-exclusive, non-transferable, royalty-bearing license to give Authorized Users access to the Licensed Materials during the term of this License via a Secure Network for the Permitted Uses described in Section 2 below, subject to the terms and conditions of this License.

### 2. SUBSCRIPTION ACCESS

An online subscription permits unlimited simultaneous Internet Access to complete PsychiatryOnline content by Authorized Users for as long as APA remains the publisher of the Content and the subscription term has not expired. Secure proxy access from off-campus locations is allowed.

### 3. SUBSCRIPTION TERM:

Online subscriptions will run for a period of 12 months, starting January 1 and expiring on December 31. Subscriptions for more than the standard 12 month period will not be accepted by the Publisher.

### 4. COPYRIGHT

THE PUBLISHER's subscribed content at PsychiatryOnline and their contents, including abstracts, are copyrighted by THE PUBLISHER and are subject to all applicable copyright, database protection and other rights of THE PUBLISHER as copyright owner and publisher under the laws of the United States and other countries. Copyright notices in THE PUBLISHER subscribed content at PsychiatryOnline may not be removed, obscured, or modified in any way.

### 5. AUTHORIZED USERS

- A. This grant of access to the Licensed Material extends only to Licensee and Authorized Users affiliated with Licensees' Authorized Sites. It may not be transferred or extended to others. "Authorized Site" means an institution under a single administration and uses a single Secure Network to access the Licensed Material. This agreement hereby applies to multiple Authorized Sites as detailed in **Appendix C**.
  - i. **The CONSORTIUM will clearly delineate the range of IP addresses, including the proxy IP server, for each unique institution. THE PUBLISHER may refuse to grant a single-site license to an institution claiming a range of IP addresses or using a proxy IP server that, in THE PUBLISHER's opinion, represents more than one Authorized Site. In such cases, purchase of a multi-site license may be required.** Proxy IP addresses may be used for access to the Licensed Material only by Authorized Users.
- B. "Authorized Users" means only the employees, faculty, staff, students, and contractors officially affiliated with the Authorized Sites. Authorized Users also include:
  - i. Occasional users who access the Licensed Material through stations physically located on the Authorized Sites and under the control and administration of the Licensees (aka "walk-in users").
  - ii. Distance learners, telecommuters, faculty on sabbatical, or other persons accessing the Licensed Material from off-site, so long as all such off-site users are primarily affiliated with the Authorized Sites, and are **not** primarily affiliated with a site which would require a separate license.
- C. Unauthorized use of the Licensees' IP addresses for access to the subscribed content at PsychiatryOnline is a breach of this contractual Agreement. Licensees warrant and represent that common and reasonable measures will be used to prevent access by unauthorized persons to the secure network and to the Licensed Material, and to inform Authorized Users of general terms and conditions for the use of subscribed content at PsychiatryOnline that are

consistent with this Agreement. Furthermore, Licensees will make common and reasonable attempts to enforce the terms of this Agreement upon receiving information from THE PUBLISHER or any other source that reasonably indicates that one or more Authorized Users is in violation of the terms of this Agreement, or that unauthorized users have gained access to the Licensed Materials via Licensees' IP addresses.

## 6. AUTHORIZED USE

The Licensees and Authorized Users are permitted access to the Licensed Material, and may download or print text, search results, or other information from the Licensed Material solely for the private use, **education, distance learning (remote access), teaching, research, or administrative use within the normal practices** of the Licensees and the Authorized Users. For inclusion in course packs or similar use, the Licensees and the Authorized Users are permitted to print one hard copy (or bookmark a digital copy) and share such hard copy or bookmark with third parties to the same extent as the print edition or to the extent permitted under fair use provisions of the Copyright Laws of the United States codified in title 17 of the U.S. Code, **or for Canadian institutions, comparable Canadian Copyright Law**, which is party to both the Universal Copyright Convention and the Berne Copyright Convention. The production of multiple copies for print coursepacks is prohibited without explicit approval. Links to the Licensed Material may be used in e-reserve and learning management systems for course materials.

- a. Licensees may fulfill requests from other institutions, a practice commonly called Interlibrary Loan. Participating Member Institution agrees to fulfill such requests in compliance with Section 108 of the United States Copyright Law (17 USC §108, "Limitations on exclusive rights: Reproduction by libraries and archives"), **or for Canadian institutions, comparable Canadian Copyright Law**. The electronic form of the Licensed Material may be used as a source for ILL, provided that it is transmitted by secure electronic transmission using services such as Ariel **or post to Web systems currently currently in use with Relais Express and OCLC's Article Exchange**. to fulfill the request, **where the electronic file is deleted immediately after printing or other reasonable measures are taken to protect further distribution of the Licensed Materials**. Non-secure electronic transmission is not permitted.
- b. Downloading: Downloading, printing, or saving single pages of PsychiatryOnline content for the purposes of research, preservation of content, teaching, and/or private study by Authorized Users is permissible. Systematic downloading (by robots or other automatic processes) is prohibited without explicit approval.
- c. **Licensed Materials must be provided in an Accessible Format for persons with visual, physical, and perceptual disabilities. Without limiting the previous sentence, in the event that any Licensed Materials are not in Accessible Format, the Member Institution shall have the right to modify or copy the Licensed Materials in order to make it useable to Authorized Users within the scope of this Agreement.**

## 7. PROHIBITIONS ON CERTAIN USES

Altering, recompiling, copying, reselling, redistributing, publishing or republishing of any THE PUBLISHER PsychiatryOnline text, output, search results, or other information from the THE PUBLISHER subscribed content at PsychiatryOnline, or any portion thereof, including without limitation, copyright, trade secret, proprietary and/or other legal notices contained therein, in any form or medium is prohibited. Systematic downloading, service bureau redistribution services, printing for fee-for-service purposes and/or the making of print or electronic copies for transmission to non-Licensees or non-subscribing institutions (beyond that permitted in Section 2) are prohibited. All rights not expressly granted are reserved to THE PUBLISHER.

## 8. ARCHIVE POLICY

### A. Digital Preservation

THE PUBLISHER is committed to the long-term preservation of the THE PUBLISHER's online publications. **The publisher does not have an agreement with LOCKSS, a third-party, to preserve THE PUBLISHER's published content but APA acknowledges that The Licensee may participate in the LOCKSS system for archiving digitized publications. To benefit from this support, The Licensee must install a LOCKSS cache at their Institution. (See <http://lockss.stanford.edu> for further information.) The Licensee may perpetually use the LOCKSS system to archive and restore PsychiatryOnline journal content, so long as The Licensee's use is otherwise consistent with this Agreement. APA further acknowledges and agrees that, in using the LOCKSS system, PsychiatryOnline content may be made available to other LOCKSS system participants who indicate a right to the subscribed PsychiatryOnline content. APA does not permit archiving of book content.**

- d. Subscription renewal or cancellation: In the event that Licensee does not renew a subscription, journal content from PsychiatryOnline will be available to licensee on a rolling 12-month embargo basis. Thus, if licensee does not renew after December, journal content from the previous 12 months and going back to January 1997 shall be available to licensee. Non-journal content from PsychiatryOnline shall not be available to licensee after non-renewal or cancellation. Perpetual access applies to journal content only. Journals are listed in Appendix A.

## 9. DURATION OF AGREEMENT

This Agreement will become effective upon receipt by THE PUBLISHER of a paid subscription and the Agreement signed by the Subscriber acting for and on behalf of Institutions of the CONSORTIUM ("the Licensees"), and, subject to the terms and conditions of this Agreement, will remain in effect thereafter as extended by agreement of the parties and so long as annual subscription fees are paid. Either party may terminate this agreement by written notification to the other party prior to 90 days before the end of a subscription year.

Access to the Licensed Material will be terminated for a Licensee:

- A. Immediately, if THE PUBLISHER discovers a violation of the Terms and Conditions, which, in THE PUBLISHER's judgment, threatens the security of the Licensed Material or other THE PUBLISHER intellectual property.
  - i. For violations of the Terms and Conditions that do not threaten the security of the Licensed Material or other THE PUBLISHER intellectual property, THE PUBLISHER shall grant Licensee thirty (30) days from receipt of notice of such violation to cure the violation. At the end of the thirty (30) day notice period, if THE PUBLISHER determines in its sole discretion that Licensee has not taken reasonable satisfactory steps to cure the violation, THE PUBLISHER may terminate this Agreement immediately.
  - ii. In the event of unauthorized use of the Licensed Materials by an Authorized User, THE PUBLISHER or Licensee (whichever party discovers the violation) shall notify the other party, and cooperate to identify the User, and inform the User of the Prohibited Uses as defined in Section 3. If thirty (30) days after discovery, such unauthorized use has not been cured, THE PUBLISHER may shut down access to the offending Licensee or terminate this Agreement. Notwithstanding anything in the foregoing to the contrary, THE PUBLISHER reserves the right to restrict access to a Licensee at any time during the thirty (30) day period, if THE PUBLISHER deems such a step necessary to protect the security of its Licensed Material.

## 10. USAGE STATISTICS

THE PUBLISHER will provide Licensees access to usage statistics for the subscribed material. Data will include the number of full-text article downloads for each subscribed title, and the data may be accessed at any time by the Licensees. Usage data will be provided in a manner consistent with the applicable privacy laws and confidentiality requirements of both parties. All usage data will be COUNTER-compliant.

#### **11. FAILURE OF PERFORMANCE**

Following online access approval, the Licensees and Authorized Users will be permitted to attempt access to the Licensed Material at any time. THE PUBLISHER will not be liable for any delay, downtime, transmission error, software or equipment incompatibilities, force majeure or other failure of performance. THE PUBLISHER may have contracted with one or more outside agencies to provide the online service and THE PUBLISHER shall seek to ensure that all services are provided by outside agencies as negotiated. THE PUBLISHER will use commercially reasonable efforts to correct any material performance problem brought to its attention and may suspend performance pending such correction. THE PUBLISHER's responsibility to the Licensee and Authorized Users does not extend beyond such endeavors.

#### **12. INDEMNITIES**

The Publisher warrants to the Licensee that the Licensed Materials used as contemplated by this License do not infringe the copyright or any other proprietary or intellectual property rights of any person. The Publisher shall indemnify and hold the Licensee harmless from and against any loss, damage, costs, liability and expenses (including reasonable legal and professional fees) arising out of any legal action taken against the Licensee claiming actual or alleged infringement of such rights. This indemnity shall survive the termination of this License for any reason. This indemnity shall not apply if the Licensee has amended the Licensed Materials in any way not permitted by this License.

THE PUBLISHER RESERVES THE RIGHT TO MAKE CHANGES TO THESE TERMS AND CONDITIONS. However, THE PUBLISHER must provide the Subscriber with at least thirty (30) days' prior written notice of any changes to these terms and conditions. If the Subscriber does not accept any change to the terms of the Agreement by THE PUBLISHER, the Subscriber may notify THE PUBLISHER by e-mail, fax, or letter, prior to the effective date of such changes, that the Subscriber does not accept such change, in which case the current terms shall apply until the end of the Subscriber's current subscription term.

#### **17. CERTIFICATION**

Licensee certifies that all IP addresses provided to APA correspond to Authorized Users of the Institution and that proxy servers (if in use) provide access only to Authorized Users and not to institutions and/or users who are not included under the terms of this Agreement.
