e-HLbc 2017 Ranking Survey

Member institutions are invited to submit ONE completed Ranking Survey no later than **July 7, 2017**. To prevent colleagues from overwriting each other's responses, please consider assigning a delegate to complete the survey on behalf of your institution.

Survey Overview

Each institution is asked to choose its top 5 products from the list of products compiled through the e-HLbc e-Box and evaluate each one on a scale of 1 (highest priority) to 5 (lowest priority). Based on the aggregated results, approximately two or three products will be chosen for consideration for consortial licensing. Members are also asked to indicate for all products listed in the survey a) which products they already license, and b) how likely they would be to license each product should a consortial license be made available (i.e. does your institution have the funds and the intent to license consortially in the next few years). Indicating a high interest in licensing a product does not commit your institution to join a group license at this time or in the future.

Deadline

You may complete the survey in one pass or over several successive login sessions before the closing date of **July 7th**. e-HLbc will consolidate and post the results of the survey, along with a plan for follow-up actions.

Questions?

If you have any questions about the Survey, please contact Jennifer Bancroft (jenniferb@ehlbc.ca) or Leigh Anne Palmer (leighannep@ehlbc.ca).

There are 6 questions in this survey

Products Already Licensed at your Institution

3. Please select all products that your institution currently licenses.

Check all that apply:

- ○ AMED Allied and Complementary Medicine
- ○ AccessMedicine
- ○ AccessPortal
- ○ Bates' Visual Guide (including OSCEs)
- ○ Best Practice
- ○ ClinicalKey for Nursing
- ○ Dentistry & Oral Science Source
- ○ Emcare
- ○ EMBASE
- ○ Health Business Full Text
- ○ Journal of the American Medical Association
- ○ Joanna Briggs Institute EBP Database
- ○ LexiComp
- ○ Lippincott Advisor
- ○ LWW Health Library: Advanced Practice Nursing
- ○ Mosby's Nursing Video Skills
- ○ Nursing & Allied Health Database
- ○ Psychotherapy.net
- ○ Rehabilitation Reference Center

Evaluating Products for Consortial Licensing

4. From the list of suggested products (to review the list and read product descriptions, see the 2017 Output Report), please choose the top 5 products that your institution would consider to be suitable candidates for an e-HLbc consortium license.

Evaluate each of the 5 products on a scale of 1 (highest priority) to 5 (lowest priority).

Please choose the appropriate response for each item:

	Highest Priority				Lowest Priority
AMED Allied and Complementary Medicine	1	2	3	4	5
Access Medicine	1	2	3	4	5
AccessPortal	1	2	3	4	5
Bates' Visual Guide (including OSCEs)	1	2	3	4	5
Best Practice	1	2	3	4	5
ClinicalKey for Nursing	1	2	3	4	5
Dentistry & Oral Sciences Source	1	2	3	4	5
Emcare	1	2	3	4	5
EMBASE	1	2	3	4	5
Health Business Full Text	1	2	3	4	5
Journal of the American Medical Association	1	2	3	4	5
Joanna Briggs Institute EBP Database	1	2	3	4	5
LexiComp	1	2	3	4	5
Lippincott Advisor	1	2	3	4	5
LWW Health Library: Advanced Practice Nursing	1	2	3	4	5

Mosby's Nursing Video Skills	1	2	3	4	5
Nursing & Allied Health Database	1	2	3	4	5
Psychotherapy.net	1	2	3	4	5
Rehabilitation Reference Center	1	2	3	4	5

Likelihood of Licensing Products

How likely would your institution be to join a group license for the following products IF one were available in the next two fiscal years?

Note: This question is intended to capture how many institutions could move forward with joining a group license if e-HLbc were able to trial and license a product (i.e. how many institutions have the funds available to license, a high desire to license, etc.).

Indicating on this survey a high likelihood of licensing a product does NOT commit your institution to joining a license should one become available.

5. Please indicate for each product how likely your institution is to license it:

Please choose the appropriate response for each item:

AMED Allied and Complementary Medicine	Highly Likely	Somewhat Likely	Not at all Likely
Access Medicine	Highly Likely	Somewhat Likely	Not at all Likely
